DETAILED ACTION

Allowable Subject Matter

Claims 1 and 4-10 are allowed.

The following is an examiner's statement of reasons for allowance: Although the prior art of reference cites various enzymes with similar structures, none of the prior art references teach the specific EC 3.1.1.74 cutinase in a method for reducing the backstaining of a dye on a denim fabric during stonewashing. Therefore, it would not have been in the preview of the skill artisan at the time the invention was made to practice the instant method for reducing the backstaining of a dye on a denim fabric during stonewashing using EC 3.1.1.74 cutinase.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
